FLAUZAR®

CATALOGUE 2019

ELECTRONICS FOR FISHERMEN

25 years on the market

FISHTRON Q9-RGB TX

MULTICOLOUR BITE ALARM WITHOUT COMPROMISE

This successor of a very popular bite sounder is equipped with a reworked communication protocol for faster and more accurate transmission of information on bites to the **RX MULTI**, **RX SIX** and **RX MINI** receivers.

The sounder has a number of essential functions, such as its unique optical and acoustic signalling of fishing line movement direction, a wide range of sensitivity settings from 4 mm to 15 cm, a large variety of choices of tone and volume.

There is also a **MUTE** function to turn off the transmitter module and sounds for 60 seconds. This function is convenient when setting the swinger.

FISHTRON Q9RGB – also on offer without a receiver

Reference: **Q9-RGB TX**

SPECIFICATIONS

- > unique multifunctional optical signalling with choice of colour indication
- > simple setting of LED column brightness
- > fast and accurate transmission of bite information to the receiver
- > acoustic signal with a large spectrum of tones
- > intuitive control of sensitivity, tone and volume
- > extremely fine sensitivity setting from 4 mm
- > MUTE function
- > attractive design with a rubberised body
- > connector for swinger connection
- > a very long battery life

DIMENSIONS (W X L X D):
50 x 86,7 x 31,2 mm

FORK WIDTH:
18 mm

LENGTH SCREW:
20 mm

POWER SUPPLY:
2x LR1

FISHTRON RX MULTI

RECEIVER WITH NEW POSSIBILITIES

Improved remote listening receiver designed to receive up to

4 FISHTRON Q9-RGB TX, NEON TX3, CATFISH TX3, FISHTRON e3TX

bite alarms. It recognises both the bite and the speed and direction of the unwinding fishing line, as well as a set LED colour as a new feature.

The receiver indicates everything visually and acoustically by different tone heights (depending on the sounder settings).

The receiver contains 3 alarm channels that work with ALF3 fishing alarms.

Reference: RX MULTI

SPECIFICATIONS

- > attractive design with a rubberised body which fits well in the hand
- > you can wear it around your neck or put on a table
- > reliable reception and display of bites from up to four bite sounders:

FISHTRON Q9-RGB TX, FISHTRON NEON TX3, FISHTRON e3 TX

a FISHTRON CATFISH TX3

- > possible to connect up to three wireless ALF3 alarm sensors
- > built-in LED lamp

modern electronics, powered by only one AAA cell

- > (regular battery) = cheap operation and financial savings
- > possible to control wireless lamp WRL1 and WRL2
- > intelligent battery status indication informs regarding the need to replace the battery in advance

DIMENSIONS (W X L X D):
50 x 86,7 x 31,2 mm

POWER SUPPLY:
1x AAA

RECEIVER:
For 4 devices

RANGE:
Several hundred meters

FISHTRON RX SIX

ONE RECEIVER, MANY POSSIBILITIES

FLAJZAR FISHTRON RX SIX remote listening receiver, allowing to receive up to six devices. It cooperates with FLAJZAR FISHTRON NEON TX3, FISHTRON e3 TX, FISHTRON Q9-RGB TX, FISHTRON CATFISH TX3 bite sounders and it can also evaluate the alarm from FLAJZAR FISHTRON ALF3 wireless sensors and connect other selected FLAJZAR accessories. Simple, small, well wearable and with a long battery life – this is the new FLAJZAR FISHTRON RX SIX receiver.

Reference: **RX SIX**

SPECIFICATIONS

- > receiver for 6 devices
- > range of several hundred metres
- > unique design
- > the latest electronics

RANGE:
Several hundred meters

RECEIVER
For 6 devices

DIMENSIONS (W X L X D):
50 x 71 x 29 mm

POWER SUPPLY
3V (2 x AAA)

FISHTRON NEON TX3

WHEN YOU WANT MORE

The FISHTRON **NEON TX3** bite sounder is distinguished by its perfect design and modern electronics. An integrated remote listening transmitter with a range of up to several hundred metres is a matter of course. Two simple and easy to operate control elements allow you to set all the necessary sounder parameters, such as volume, sensitivity (the length of unwinding fishing line) and pitch. There is a multifunction control button at the bottom which is used to turn the bite sounder on and off, but what else? It also lights up the white positional LEDs. We deliberately placed them in the rear, entirely up so that they can illuminate your fishing spot. And that's not all. As you will see, it will serve you well as a beacon thanks to which you can rapidly orient yourself when loading feed. This advantage will be appreciated especially in poor visibility or at night. The bite sounder has a built-in ambient light sensor that provides intelligent brightness control depending on light conditions. As a result, the LEDs are dimmed at night to avoid glare and, vice versa, its brightness is increased during the day

Reference: **NEON TX3B, NEON TX3G, NEON TX3R, NEON TX3V**

FISHTRON NEON 3 - also on offer without a receiver

SPECIFICATIONS

- > work with receiver:
RX MULTI, RX MINI and RX SIX
- > elegant translucent design
- > colors: blue, green, red and violet
- > extremely simple to operate
- > unique design

RANGE:
Several hundred meters

COLOR COMBINATIONS:
4 color combinations

DIMENSIONS (W X L X D):
102 x 49 x 32 mm

POWER SUPPLY:
3V (2 x LR1)

WIRELESS LED LAMPS

WITH AUTOMATIC ILLUMINATION AFTER BITE

FISHTRON WRL1 FISHTRON WRL2

The lamp is designed not only for regular lighting, but it may be automatically switched on after the bite thanks to an integrated receiver.

Up to eight devices can be saved in its memory at the same time.

The new lamps FISHTRON WRL1 and FISHTRON WRL2 are compatible with bite alarms **FISHTRON Q9-RGB TX**, **FISHTRON CATFISH TX3**, **FISHTRON NEON TX3**, **FISHTRON e3TX** receiver **FISHTRON RX MULTI** and **WRL-KEY** and with **ALF3** fishing alarm.

Reference: **WRL1**

Reference: **WRL2**

SPECIFICATIONS

- > power supply: 3 LR6 (AA) batteries (not included)
- > the light can be used in a ordinary manner or in sleep mode
- > all types itself turn it off after cca 30s after bite in ordinary manner.

WRL1

WRL2

HEADLAMP HIGH POWER

FLAJZAR®
CATALOGUE 2019

WITH 3W WHITE AND 5W RED LED FOR POWER BATTERY

This Headlamp is multifunction lamp with intensive luminous, long life and 2 choices for power battery (you can power battery with usb or use normal battery 3xAAA)

Reference: **COB**

SPECIFICATIONS

- › for red light is luminous to 100 lumen and setting intensity of luminous intensity (weak/high)
- › the highest luminous intensity the battery will last 4 hours and with low luminous intensity 24 hours
- › for white LED is luminous to 150m
- › Rechargeable Lithium Ion Battery(usb cable is a part of the package)
- › tilt function is to 90 degrees
- › SOS function
- › IXP4 watherproof
- › adjustable strap

CAMPING LANTERN BULBTENT LIGHT

FLAJZAR®
CATALOGUE 2019

FOR OUTDOOR AND FISHING

- › Material: plastic
- › Size: 10,3 x 6 cm
- › Battery: 3xAAA (not incloud)
- › Power: >10h
- › Light: LED
- › Color Temperature: COOL WHITE
- › Body Color: blue,red,green and yellow
- › Usage: Camping, Working, Outdoor Lighting, Fishing

Reference: **BCL-B,G,R,Y**

MAGNETIC CLIP PEN LIGHT LED

INSPECTION WORK LIGHT

- › Material: ABS
- › Weight: 55,8g
- › Size: 185x35x20mm
- › Battery: 3x AAA (not incloud)
- › Light: 3W COB+1W LED
- › Body Color: black, blue
- › Usage: Camping, Working, Outdoor Lighting, Fishing

Reference: **PCL**

FISHTRON CATFISH TX3

IDEAL FOR CATFISH

It is the world's unique and dimensionally very small catfish

bite sounder. Working with receiver **RX MULTI**, **RX MINI** and **RX SIX** and

with lamps **WRL1**, **WRL2**. Unique and secure attachment

directly to a fishing rod allows you to concentrate only on the fishing for catfish

itself, instead of finding lost bells and shock sensors.

The maximum accuracy of bite evaluation is achieved with the modern **4D system**

used by the sounder. The 4D system does not evaluate the change in position only in the

three standard axes X, Y and Z, but it also uses a time parameter as a fourth dimension.

When fishing for catfish, angle change or fishing rod bending is evaluated instead of the shocks.

Reference: **CATFISH TX3**

SPECIFICATIONS

- > 2 bases for quick and easy mounting on any type of fishing rod.
- > choice of 4 sensitivity modes
- > 4D systém
- > in the open area range 100m
- > Integrated transmitter with audio alarm in a small body.

RANGE
Till 100 m

SENSITIVITY MODES
4 modes available

DIMENSIONS (W X L X D):
62 x 27,5 x 22 mm

POWER SUPPLY
3v (1x CR2023)

FISHTRON ALF3

EQUIPMENT UNDER CONTROL

ALARM FOR FISHERMAN

ALF3 is unique PIR sensor intended primarily to monitoring fishing spots and rods. In addition to unique design and miniature size, the alarm sensor is distinguished by its modern unilateral motion detection, ensuring a wide angle sensor range at a distance of up to 6 metres. A wireless range of the integrated transmitter which ranges in hundreds of metres is also exceptional.

In addition to monitoring fishing spots and rods, this device can be used, for example, for monitoring your boat, car, motorcycle or tent – in short, wherever you need to take control of your assets during your travel near water.

Reference: **ALF3**

SPECIFICATIONS

- > version with two-way motion detection - angle of monitoring **110°** from each side
- > The alarm sensor cooperates with receivers **RX MULTI**, **RX MINI**, **RX SIX** and after when they registration motion detection the audible alarm sounds and light up LED with wireless lamps **WRL1** and **WRL2**
- > very long battery life and waterproof

ANGLE OF VIEW

110° from each side

RANGE

Till 100 m

DIMENSIONS (W X L X D):

96 x 50 x 29 mm

POWER SUPPLY

2x LR1

FISHTRON e3 TX

SMALL, EASY, AMAZING BITE ALARM FOR EVERYONE

This bite alarm is for fisherman who they prefer easier and traditional design. Its unique design along with electronics by FLAJZAR with precise magnetic sensing of fishing line, quality workmanship, durability and long battery life.

FISHTRON E3 – we will have in offer bite alarm FISHTRON E3 without receiver. It's compatible with all of products RGB, i.e. receivers **RX MULTI**, **RX MINI**, **RX SIX** and lamps **WRL1**, **WRL2**

Reference: **e3 TX**

SPECIFICATIONS

- > volume control
- > volume tone
- > the possibility of color change
- > no resolution of the coating direction
- > memory LED
- > output connector for swinger

COLOR COMBINATIONS
Several color combinations

DIMENSIONS (W X L X D):
104 x 49 x 38 mm

POWER SUPPLY
2x LR1

FISHTRON RX MINI

MINIATURE RECEIVER

The new miniature remote listening receiver, allowing up to nine devices, the bite is signaled acoustically and optically on an LED display. It works not only with **FISHTRON NEON TX3**, **FISHTRON Q9-RGB TX** and **FISHTRON CATFISH TX3**, **FISHTRON e3TX**, but can also evaluate the alarm from the **ALF3** wireless sensors and the connection of another selected FLAJZAR accessory. Simpy, very small, not heavy and with long battery life.

Reference: **RX MINI**

SPECIFICATIONS

- › miniature size 36x71x25mm
- › power supply 2x AAA
- › very light
- › very quickly and exact information about bite
- › digital optical signaling with LED display

DIMENSIONS (W X L X D):
36 x 71 x 25 mm

POWER SUPPLY
2x AAA

RANGE
Hundred meters

RECEIVER
For 9 devices

CAP

KHAKI CAP FLAJZAR

- > 100% cotton
- > meshes: 100% Polyester, 260g
- > on the front of the embroider
- > 5 sizes with plastic buckle

LADY T-SHIRT

MINT T-SHIRT FLAJZAR LADY

Basic lady t-shirt and a little bit oversize.

Material is organic cotton which is very comfortable and is thrifty to environment.

- > Material: 100% organic cotton, 120g/m2
- > Printing: sito printing

BASIC T-SHIRT

MILITARY T-SHIRT FLAJZAR

Unisex t-shirt with higher grammage and 5% elasthan.

- > Launder: 40°C
- > 100% cotton, 200g/m2
- > Printing: sito printing

SWEATSHIRT LADY

GREEN SWEATSHIRT FLAJZAR

This sweatshirt has hood which is good for raining and windy days.

Material is with lycra what is elastic and adapts for every body.

- > Material: 80% cotton, 20% polyester, 240g/m2
- > Printing: sito printing

RUBBER CASE

You can buy this rubber case as accessories.

Solid rubber case protects the bite alarms during transport. Thanks to this, you don't have to remove the detector from a rack. The case is customised for our **FISHTRON Q9-RGB** and **Q9-RGB TX** series sounders.
