River Tripod

KREST/24

WEIGHT 1.6kg

This super bit of kit is made using anti-twist extrusions that provide a totally stable platform for your rods and reels. We've designed our own special stabiliser at the rear of the tripod, that adds stability and strength where it matters, but can still be pushed into the ground where required. The frame can be extended during use but packs away neatly via cam locks, making it compact during transit. The chunky buzz bars are incredibly strong and feature our brilliant Speed-Fit system, so you don't need to screw them in and out to use or remove them, simply flick the cam switch and you're ready to go! The front legs can be adjusted to almost any angle and also feature height adjustment via cam lock switches. This completes what we believe to be our best River Tripod yet.

- Strong and adjustable aluminium frame
- Front legs feature height and angle adjustment
- Comes complete with two Speed-Fit buzz bars, front and rear, for two rods

Big Tube Rod Rest

KREST/23

This 'target' style rest is perfect for lots of different fishing techniques, especially float and feeder. The larger profile and chunky tube offers rigidity and stability, important when making small adjustments to the rod's position. Complete with our FixAngle block, so you can fish the rest at any angle and a locking nut to secure to banksticks or feeder arms.

Angle Tilt Windbeater Rest

KREST/06

With a narrow rod groove to stop the rod being blown out and a deep line groove to enable the use of free spool systems and our exclusive angle tilt mechanism.

Y Rest (pair)

KREST/08

Prevents rods blowing out due to wind or the rod being pulled from the rest on the bite. The deep line drop allows the use of free spool systems. Complete with locking nuts.

Uni & Micro Butt Rests

KREST/16 Uni Butt Rest
KREST/17 Micro Butt Rest

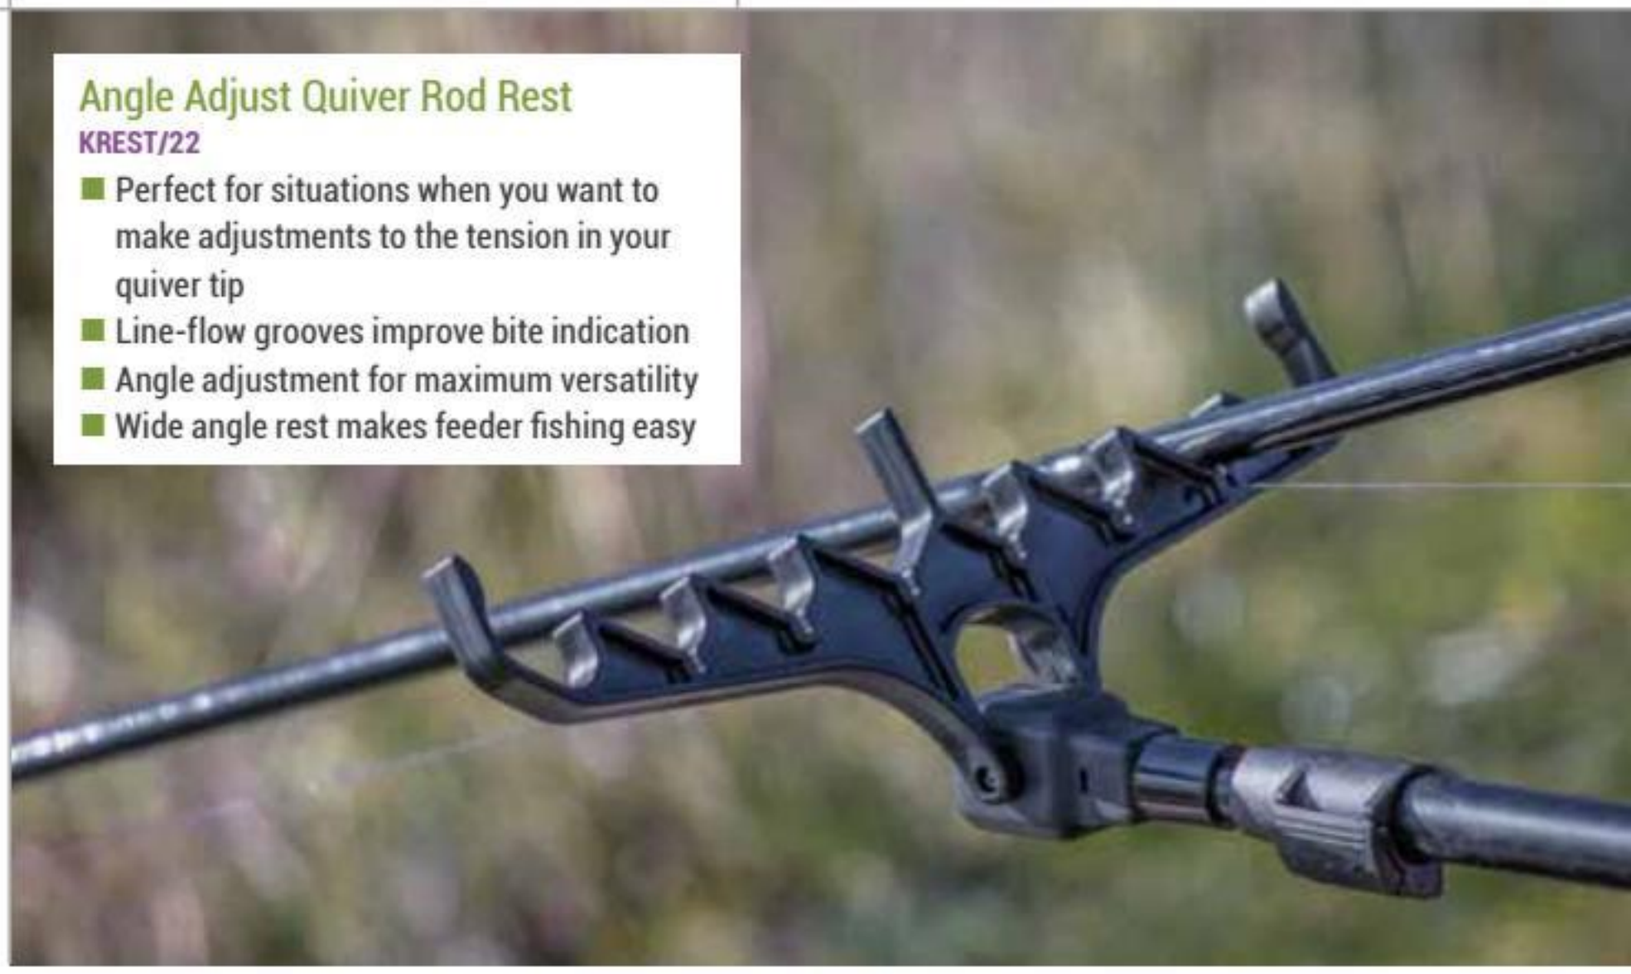
Suitable for cork, duplon and abbreviated rod butts. Soft rubber flexes to suit all rods.

- Brass screw thread
- Rubber O Ring for fine adjustment

Angle Adjust Barbel Rest

KREST/21

- Compact rod rest with snag bar style design
- Angle adjustment for maximum versatility
- Overmoulded section to provide a softer rest
- Perfect for modern feeder fishing for big fish



Angle Adjust Quiver Rod Rest

KREST/22

- Perfect for situations when you want to make adjustments to the tension in your quiver tip
- Line-flow grooves improve bite indication
- Angle adjustment for maximum versatility
- Wide angle rest makes feeder fishing easy

Rod Pods

Designed to be compact, portable and ultra-stable. Its sleek looks and matt finish components make it the perfect rod pod. It comes with two Korum Buzz Bars, which are different lengths to provide a nice 'fanning' of the rods for a more pleasing look on the bank. Korum Banksticks are used as uprights, so should you require you can use other longer versions for fishing at range or on rivers.

- Canvas bag for storage
- Two Korum Buzz Bars
- Four Korum Banksticks
- Pod frame and cams

HOOKS & LINE

RELIABILITY

Having confidence in your end tackle is a huge part of fishing. We've got a full range of tried and tested products that you can trust.

Feeder Line

KFLINE/6 6lb/0.23mm | **KFLINE/8** 8lb/0.26mm
KFLINE/10 10lb/0.28mm | **KFLINE/12** 12lb/0.30mm
LENGTH 250m

Korum Feeder Line is our first ever reel line designed specifically for modern feeder fishing techniques. It's super fast sinking as it has a specific gravity rate much denser than water, unlike many other lines. It's superior knot strength, round profile and smooth olive green finish make it absolutely perfect for the rigours of modern feeder fishing.

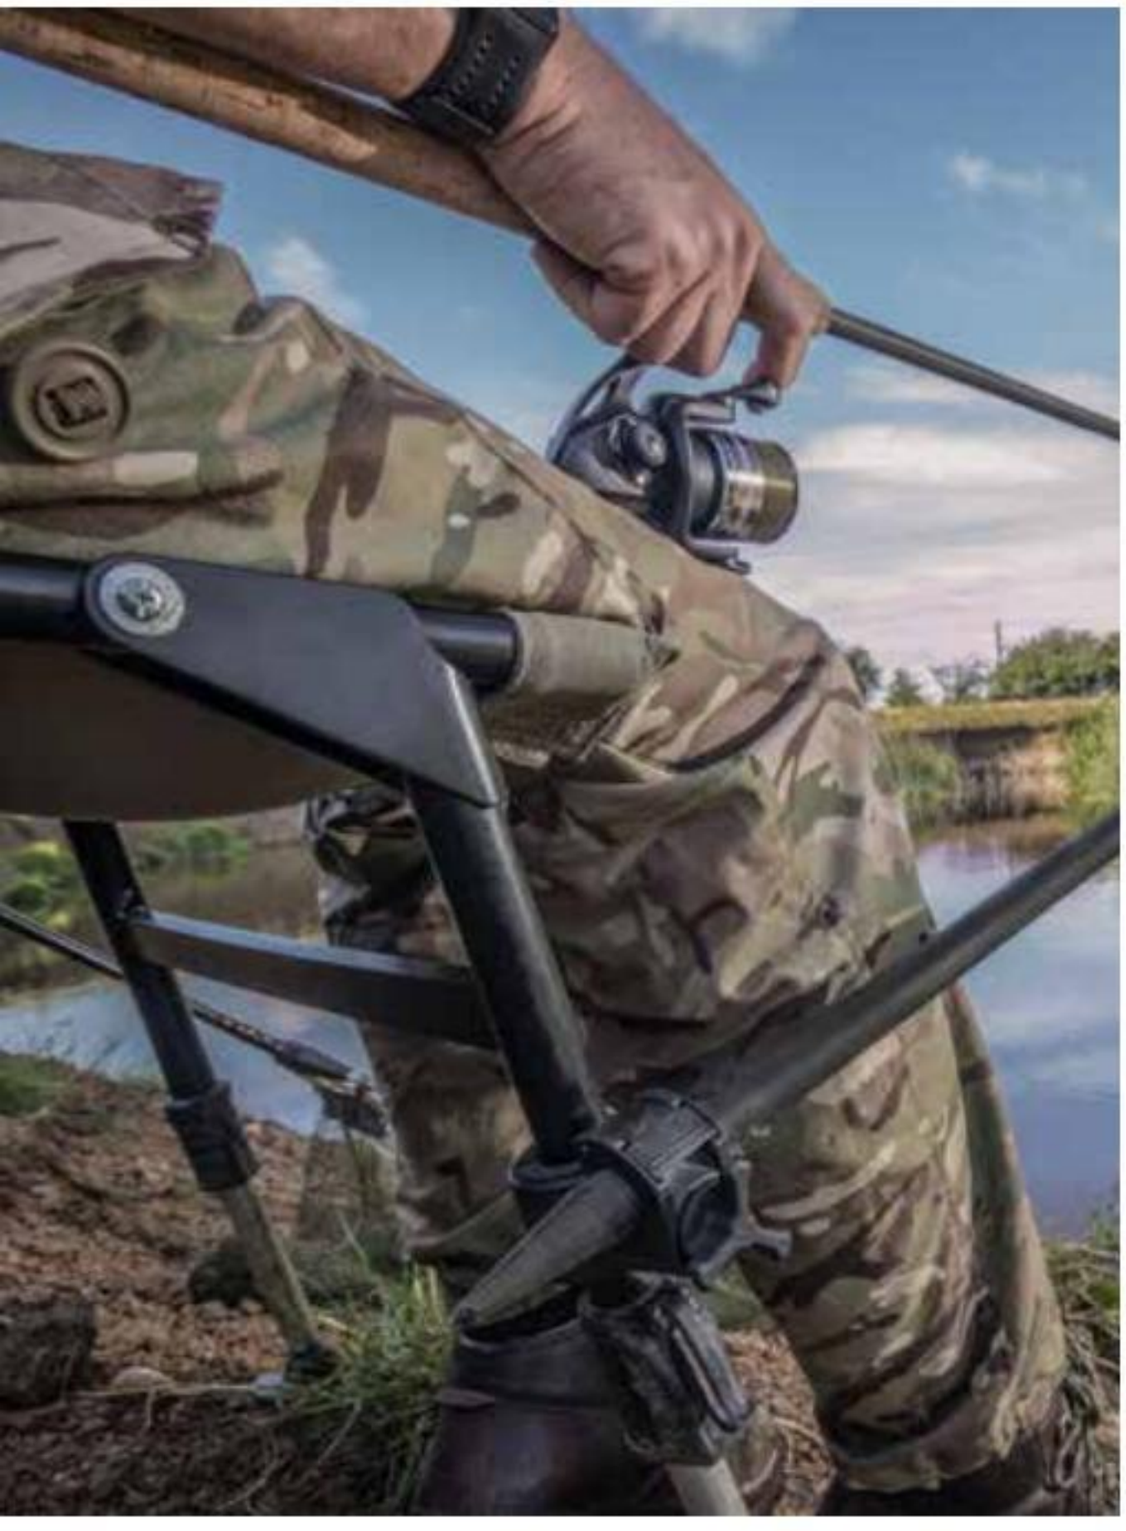
- No glare olive green finish
- REFLO® technology

Barbel Line

KBL/08 8lb/0.28mm | **KBL/10** 10lb/0.30mm
KBL/12 12lb/0.33mm
LENGTH 100m

Simply the best line for specimen fishing we've ever used. The result of extensive testing has resulted in a super strong, durable and beautifully invisible hooklink for big fish fishing. The two-tone construction breaks up the outline of the hooklink, making it harder for fish to see in clear water. The combination of clear and dull brown offers fantastic camouflage, whilst the line itself provides simply stunning performance when it matters.

- Impressive linear and knot strength
- Durable and abrasion resistant
- Fast sinking



Xpert Reel Line

KXRL/6 6lb/0.23mm | **KXRL/8** 8lb/0.26mm
KXRL/10 10lb/0.28mm | **KXRL/12** 12lb/0.30mm
KXRL/15 15lb/0.35mm
LENGTH 1000m

This super strong, smooth line can be used for a huge range of fishing styles. The green tinge makes it blend in when under water, making sure the fish are less wary. The sheer strength of this line has to be seen to be believed. We've worked hard to make a line that can be pulled tight to iron out any kinks, and to stop pig tails that can weaken your knots.

- Highly abrasion resistant

Xpert Power Mono

KXPM/4 4lb | **KXPM/6** 6lb | **KXPM/8** 8lb
KXPM/10 10lb | **KXPM/12** 12lb | **KXPM/15** 15lb
LENGTH 50m

This fast sinking hooklink mono has a high abrasion resistance and fantastic camouflage qualities. It's supple, strong and ideally suited for big fish. Straightens easily. The Xpert spools fit in all ITM boxes easily.

RECOMMENDED KNOTS:

- Knotless knot
- Grinner knot
