T3910 Scope Black Ops Recon Brolly Side Panel

RRP £43.99

SCOPE BLACK OPS RDS

Scope has brought back the heritage of carp fishing and the ethos of hunting rather than camping – mobility, stealth and rapid deployment. The Scope Black Ops RDS (Rapid Deploy Shelter) truly embraces the Scope philosophy giving you a shelter solution that is so compact and lightweight you can store it inside your Bed, set it up or break it down in seconds rather than minutes and fish covertly and in situations where others simply couldn't. The RDS clips to the head and foot sections of your bedchair to enhance support – simply peg out and fit the tension bars to provide complete shelter over your bed and enough room to store stripped out essential gear.

- » Sprung, pop up frame design.
- » Extreme Waterproof 5000mm Aqua Sense Hydra Cover
- » Front letter box design mosquito and waterproof door
- » Supplied with tension bars and pegs

SCOPE BLACK OPS BASE SEAT

You might look at this and ask yourself what it is ... and how much! Kevin Nash has spent his carp fishing career sitting on the ground with his back leaning against the bedchair on his version of the Base Seat. It's only when you actually sit on one that you realise how perfect for the switched on angler it is - you are sitting in the perfect position; eyes peeled watching for any signs of carp. At ground level you can have your tackle and bait at hand to tie up and bait rigs etc. The Base Seat provides comfort, can easily be stored in your bedchair and equally important it is the lightest, most compact seating solution on the market.

- » Waterproof wipe clean base
- » Dual layered hollow fill and foam cushion
- » Velcro attachment points to fix to bedchair frame

SCOPE BLACK OPS RETAINER SYSTEM

The Scope solution that eliminates the weight and bulk of standard retainer slings. Converts your landing net arms and mesh into a retainer system whilst you are arranging unhooking, weighing and photography equipment. Enjoy speedy transfer to the unhooking mat, minimising stress on your capture by eliminating the need to transfer from a landing net to a retainer sling.

On netting your fish remove the arms from the landing net block, roll the net mesh up and locate the floats over both arm ends, tightening the webbing strap to secure. Supplied with a 240cm cord with 3/8th BSF thread on the end for securing to a bankstick.
