TARDIS RT

The Tardis Road Trip Edition provides the perfect marriage between something that is compact on the outside, but spacious on the inside. If you want to save some space in the car on your next adventure, or you just want to travel light and fish tight swims, this is the bivvy for you.

The RT version features a stylish storm peak, offering extra protection from elements and allowing you to increase the footprint of the bivvy when combined with overwrap (sold separately).

A 2-rib design is used to reduce weight, but spacing out the poles makes the bivvy more spacious than traditional pram-hood alternatives on the inside.

Uses soft feel 10,000mm waterproof and breathable fabric for maximum protection from the elements. Perfect for the hardcore angler who demands great quality in a more compact form. Packs down to just 86cm.

FEATURES:

- Stylish rain peak
- Easy Peak System
- Fully removable front with mosquito panel door.
- 2 Rib System that saves weight
- 4 Break pole system that makes it quicker to put up and take down

1.3 x 1.7 x 2.4m
Bag Size 35 x 95cm
Weight 9.5kg (bivvy only 4.8kg)

TARDIS RT OVERWRAP

This clever wrap design not only extends the overall coverage of the Tardis bivvy, but it also features the Velcro straps as featured on the Retention bars, so they can be used for your rods just like when using the bivvy without the outer wrap.

FEATURES:

- 10,000mm waterproof outer material
- Extends coverage of Tardis RT bivvy
- Reinforced Pegging Loops
- Front door features mosquito panel underneath waterproof fabric
- Letter box option
- Outer Velcro loops to match up with Rod Retention bars, so you still have somewhere to put your fishing rods when the wrap is in use.

1.3 x 1.7 x 2.6m
Bag Size 20 x 70cm
Weight 2.4kg

CODE	DESCRIPTION

SUPERTOUGH BIVVY PEG & MALLET SET

High quality screw-down pegs complete with rubber mallet. Supplied in good quality canvas pouch. Long spirals and a machined point make them the perfect choice for hard ground.

- 14 screw-down pegs
- 600 denier canvas pouch

46cm x 28cm
Weight 1.8kg

CODE	DESCRIPTION
AVPEG/02	Supertough Peg Set

BASE CAMPER BIVVY

This fantastic three-rib bivvy has a built-in peak system that enables you to be set up and fishing in comfort quickly and easily. As always, we have staggered the pole layout to offer increased internal space for your bedchair and tackle, whilst increasing the overall stability with side Re:tension bars, an iconic Avid Carp touch. The 10,000mm waterproof material is tough and reliable, with a heavy duty groundsheet that clips in perfectly. A rear window aids with ventilation. The front can be totally removed or used in a variety of styles, either with full mosquito panel or with mosquito mesh windows. The front door can also be used in the popular 'letter box' style. Multiple pegging points all-around and tension straps below make this a rigid, stable bivvy that can withstand all the elements. Overwrap made from the same materials available separately.

FEATURES

- 10,000mm waterproof outer material
- Extended storm peak to provide extra protection from the elements
- Separated pole layout for increased space
- Pegging loops that are reinforced and adjustable
- Heavy duty bivvy pegs
- Pole tensioning straps to make the bivvy taut when erect
- Rear vent with mosquito panel and full panel that can be zipped off from the inside
- Front door and windows feature mosquito panels behind the outer waterproof fabric
- Letter box style opening option
- Colour coded tension straps and groundsheet
- Clip in heavy-duty groundsheet
- 3 adjustable tension bars
- 2 x Rod Re:tension bars for more stability and somewhere to put your fishing rods
- Extra large carry bag with internal tension points for ultra-compact bivvy storage

1.5m x 2.7m x 2.2m

Weight 10kg (5.5kg bivvy only)

CODE	DESCRIPTION
AVBIV/01	Base Camper Bivvy

BASE CAMPER BIVVY OVERWRAP

This clever design not only extends the overall coverage of the Base Camper bivvy, but it also features the velcro straps as featured on the Re:tension bars, so they can be used for your rods just like when using the Base Camper bivvy without the outer wrap.

FEATURES

- 10,000mm waterproof outer material
- Extends the overall coverage of the Base Camper bivvy
- Reinforced pegging loops that match up with the Base Camper Bivvy
- Rear vent with mosquito panel underneath the waterproof fabric
- Front door features mosquito panel behind the outer waterproof fabric
- Letter box style opening option
- Outer velcro loops match up with Rod Re:tension bars underneath, so you still have somewhere to put your fishing rods when the overwrap is in use

HQ TWIN SKIN BIVVY MKII - 1 MAN

The most feature packed bivvy on the market just got better! The first ever bivvy to feature a built in twin-skin as standard now boasts a new internal layout and a stylish rain peak, designed to keep the elements at bay better than ever before.

The clip-in inner wrap totally eradicates the need for a winter skin and completely eliminates condensation. Once installed, it need never be removed. The inner wrap is not attached to the heavy-duty clip-in groundsheet, so it can be left in place all-year round.

The HQ has a unique separated pole layout which provides improved stability and greater floor space. It will easily accommodate a large bedchair and all the tackle that you could possible need for a long stint on the bank.

The 10,000 waterproof and breathable material is of the highest standards, with a soft brush finish that gives the HQ its distinctive look. The material is completely storm proof, boasts taped seams and has been tested in wind, snow, rain and intense sunlight. It's never let any of our anglers down.

When creating the bivvy, we concluded that it was the little things that often made a big difference. So, in a bid to give you more, we included a rear vent that can be opened from the inside, a colour coded groundsheet for easy installation and two rod-retention bars that when placed on the side of the HQ, give you somewhere perfect to rest your marker, spod or any other spare rods.

In short, it's the bivvy that sets a new benchmark. Check out all of the features and make your own mind up. We know you'll see the light!

UNIQUE FEATURES INCLUDE:

- 10,000mm Waterproof and Breathable Outer Skin
- Twin Skin Technology as standard
- Built-in Inner Skin for the most breathable setup
- Extended storm peak to protect you from wind and rain
- Separated pole layout for increased space
- New pegging loops that are reinforced and adjustable
- Pole tensioning straps to make the bivvy taut when erect
- Rear vent with mosquito panel and full panel that can zipped from inside the HQ bivvy
- Zip-off front panel. Two way zips so it can be completely removed
- Front door and windows feature mosquito panels behind the outer waterproof fabric
- Letter-box style opening option
- Colour coded tension straps that run parallel inside the bivvy
- Colour coded clip-in groundsheet for easy installation.
- 3 x Tension bars that are totally adjustable
- 2 x Rod Retention bars for more stability and somewhere to put your fishing rods
- Extra large carry bag with internal tension points for ultra-compact bivvy storage
- Heavy duty bivvy pegs

W260cm x D245cm x H140cm

Weight: 13.7kg (6.6kg bivvy only)

CODE	DESCRIPTION
AVBIV/02	HQ MKII 1 Man

HQ TWIN SKIN BIVVY MKII - 2 MAN

For longer sessions, it doesn't get any more luxurious than the stunning 2 Man HQ Twin Skin bivvy. The MKII version features a stylish storm peak, extending the already generous coverage area even further. With the same Twin Skin Technology as a 1 Man HQ, this spacious bivvy offers loads of internal space, almost like a 2.5man bivvy, thanks to the spreading out of the poles at the sides. This increases the useable internal space massively, giving you more room than any other three-rib 2 Man.

The inner wrap only needs to be clipped in once and removes the need for a winter skin. As both the internal and external materials are fully breathable and waterproof to 10,000mm, the material resists condensation, making the bivvy cooler in the summer and warmer in the winter.

The soft brush finish to the external material gives the HQ its iconic look. It's totally storm proof, boasts taped seams and has been tested in all conditions. It's never let any of our anglers down, many of whom are doing 5 nights a week, every week of the year.

Included in the HQ bivvy is a rear vent that can be opened from the inside, and like the front boasts a mosquito panel layer. The colour coded groundsheet makes installation easy and two rod-retention bars add stability, as well as giving you somewhere to rest your rods when not in use.

It's an unbelievable bivvy that for longer sessions, trips abroad, or just when you want to take all the creature comforts of home, is totally unrivalled.

UNIQUE FEATURES INCLUDE:

- 10,000mm Waterproof and Breathable Outer Skin
- Twin Skin Technology as standard
- Built-in Inner Skin for the most breathable setup
- Extended storm peak to protect you from wind and rain
- Separated pole layout for increased space
- New pegging loops that are reinforced and adjustable
- Pole tensioning straps to make the bivvy taut when erect
- Rear vent with mosquito panel and full panel that can zipped from inside the HQ bivvy
- Zip-off front panel. Two way zips so it can be completely removed
- Front door and windows feature mosquito panels behind the outer waterproof fabric
- Letter-box style opening option
- Colour coded tension straps that run parallel inside the bivvy
- Colour coded clip-in groundsheet for easy installation.
- 3 x Tension bars that are totally adjustable
- 2 x Rod Retention bars for more stability and somewhere to put your fishing rods
- Extra large carry bag with internal tension points for ultra-compact bivvy storage
- Heavy duty bivvy pegs

ASCENT BROLLY SYSTEM

- Increased headroom
- Inner skin
- Curved peak tension bar
- Built in stability rods
- Lightweight fibreglass poles and tough Dura-Stop material
- 1x full zip-in front with PVC panel and mozzie mesh
- 1x full mozzie mesh front with full-length zip
- Comes with 2x storm poles
- Complete with heavy-duty groundsheet and pegs

A totally freestanding brolly system that boasts a whole host of great features. It benefits from increased headroom and is supplied with an inner skin that can be left in place all-year round. The system can be packed away with the built-in skin in place so there's no need to ever take it out.

As well as reducing condensation, the skin also creates a layer of cool air inside the shelter, which makes the system comfortable to use during the warmer months. Made from the ultra-tough Dura-Stop material for maximum protection, the system can be used like a conventional stripped-out brolly, with or without a full mozzie mesh front, or you can make the most of the full zip-in front if you require more protection.

250 x 164 x 120-130cm

ROCK-STEADY™

avidcarp.com

ROCK-STEADY™ LEG LOCKING SYSTEM

• Benchmark Bed • Benchmark X Bed • Terabite Bed •
• Benchmark Chair • Megabite Chair •

THE ROCK STEADY CONCEPT CREATES A CAPTIVE INNER LEG THAT DOESN'T WOBBLE LIKE TRADITIONAL SYSTEMS, IT'S A REAL STEP FORWARD FOR THE BRAND. USING UK SOURCED PARTS AND CLEVER DESIGNS FROM OUR SHROPSHIRE BASED TEAM OF TALENTED CAD DESIGNERS, THE INNOVATIVE ROCK STEADY CONCEPT IS ANOTHER FIRST FROM AVID CARP.

TERABITE BED

The Avid Carp Terabite offers a generously padded wider bedchair with a totally flat profile, perfect for the angler wanting a comfortable bed with a larger surface area. The understated matt black paint finish and carpy olive green canvas and fleece give it a great look to match its top performance. The Terabite is quick and easy to use, just unfold the bed and secure with the handwheel. The traditional three-leg design offers six points of support, giving you a great night's sleep. The individually adjustable legs feature our protected ROCK-STEADY™ system, which does away with the ugly lever systems used on other chairs. This innovative system prevents the internal extendable leg from rocking – a big issue with standard setups. It also hides the mechanism, giving a much sleeker and professional look. Each ROCK-STEADY™ leg has its own non-slip mud foot, which hinges to find the perfect level every time, giving you maximum stability.

FEATURES

- ROCK-STEADY™ leg locking system
- Totally Flat Profile
- Tapered Frame Layout
- Easy Lock Adjustable Legs
- Lateral Sleep System Design
- Rapid Folding Mechanism
- Three Legs for Even Weight Distribution

Open dimensions: W90 x H42 (adjustable height 57) x D209cm
Closed dimensions: W90 x H25 x D84cm
Weight 10kg

CODE	DESCRIPTION
AVBED/05	Terabite Bed

avidcarp.com

MEM:X ONE-PIECE DESIGN

Our specially designed MEM:X Foam is the perfect option for bed chairs, providing maximum comfort. The one-piece design makes the useable surface area of the bed larger than ever, meaning even the standard Benchmark offers more comfort than any other similarly sized bed.

LUMBAR REGION SUPPORT SYSTEM

Rather than a typical elastic-wound mattress, only wrapped around the outside, our special system supports the canvas underneath as well as around the edges. This prevents sagging and enables you to enjoy all of the comfort offered by the one-piece MEM:X Foam mattress.

LATERAL SLEEP SYSTEM DESIGN

This bed is totally flat, meaning it's just like your bed at home. If your bed was made from memory foam, of course. This provides the perfect platform for a great night's sleep.

RAPID FOLDING MECHANISM

Throw hinges rather than hand wheels give more room for the mattress and more room to pack away sleeping bags inside the bed chair. A simple security clip and strap secures the Benchmark in transit.

IMPROVED WEIGHT DISTRIBUTION

All four legs of the Benchmark have been strategically placed to provide even weight distribution for increased levels of comfort.

PROTECTED INNOVATION

MEM:X FOAM TECHNOLOGY

BENCHMARK BEDS

The Avid Carp Benchmark beds set a new standard in comfort for fishing bedchairs. It features our new Lumbar Region Support system, underneath a one-piece Memory Foam mattress that is over 2" thick! No other mattress on the market comes close to Memory Foam in terms of comfort and quality making this carp fishing bedchair the one to buy. Avid Carp continues to set the bar with this technology. Both the Benchmark and Benchmark X feature two reinforced steel Throw-Hinges that allow you to pack your sleeping bag away inside the bed. This helps offer a totally flat surface, which offers maximum comfort. A strong Security Strap is used to secure the bed in transit and four legs offer eight supporting positions, giving you even weight distribution and a great night's sleep. The individually adjustable legs feature our protected ROCK-STEADY™ system, which does away with the ugly lever systems used on other chairs. This innovative system prevents the internal extendable leg from rocking – a big issue with standard setups. It also hides the mechanism, giving a much sleeker and professional look.

Each ROCK-STEADY™ leg has its own non-slip mud foot, which hinges to find the perfect level every time, giving you maximum stability.

FEATURES

- Lumbar Region Support System
- Removable one-piece Memory Foam Mattress
- Symmetrical Frame Layout
- Easy Lock Adjustable Legs
- Lateral Sleep System Design
- Rapid Folding Mechanism
- Easy Open Security Clip and Strap
- Four Legs for Even Weight Distribution
- Setting the Benchmark for Comfort
- ROCK-STEADY™ leg locking system

TUNED™ BARROW

NEW ★ 2017 ★

The Tuned™ Barrow is designed for transporting heavy loads over large distances. It boasts a unique handle system that allows you to adjust the barrow to suit your height. This reduces strain on your arms and back, ensuring the barrow is easier to push.

Shorter legs and an all-terrain tyre ensure the barrow is easier to push over uneven terrain ground.

It has a large central pocket that is Tuned™ compatible and two pockets either side of the wheel that all allow you to distribute weight evenly.

- Adjustable handles
- Shorter legs to improve ground clearance
- Easy-grip handles
- Easy-release wheel
- Compatible with Tuned™ luggage range

CODE	DESCRIPTION
AVBW/01	Tuned™ Barrow

TRANSIT X BARROW

- Unique adjustable handles
- Shorter legs to improve ground clearance
- Easy-grip handles
- Chunky all-terrain tyre
- Adjustable side rails
- Supplied with tyre bag

The Transit X Barrow is designed for transporting heavy loads over large distances. It boasts a unique handle system, which means you no longer have to bend your arms when pushing the barrow. This reduces the strain on your arms and back, making the barrow easier to push over uneven terrain. The Transit X boasts shorter legs to improve ground clearance and a chunky all-terrain tyre. It has a large central pocket that perfectly accommodates the Tuned™ Barrow Organiser, and two pockets either side of the wheel that allow you distribute the weight better across the front of the barrow.

CODE	DESCRIPTION
AV/TRBWX	Transit X

NET SAFE

This compact net float will keep your net from disappearing below the surface during the netting of big carp.

- Velcro attachment to attach to your landing net handle
- Made from a waterproof peachskin material

11 x 7 cm

CODE	DESCRIPTION
AVLUG/45	Net Safe

SINGLE ROD SLEEVE

Padded single rod sleeve designed for 12ft rods.

- Large internal capacity for big pit reels and 50mm butt rings
- Full length zip
- Made from luxury quality 600 denier material

185 x 30 x 4cm

CODE	DESCRIPTION
AVLUG/35	Single Rod Sleeve

12FT 3+2 ROD HOLDALL

This holdall features a staggered internal compartment that allows you to hold three made up rods and reels in the padded inner compartment without the reels bunching together. There is also room for two rods on the quiver style pockets on the outside of the bag. This allows the angler to store their spod and marker rod, and three carp rods set up or convert it to a 3 rod for a shorter session with ease.

- Staggered internal compartment so your reels are not bunched together as in other similar holdalls
- Will hold 3 rods with reels made up in the padded internal compartment
- Quiver style pockets on the outside of the bag for 2 more rods
- Padded adjustable shoulder strap
- Outer pockets for landing nets and banksticks
- Made from luxury quality 600 denier material

185 x 40 x 30cm

CODE	DESCRIPTION
AVLUG/36	3+2 Rod Holdall

10FT 3+2 ROD HOLDALL

This 10ft holdall features a staggered internal compartment that allows you to hold three made up rods and reels in the padded inner compartment without the reels bunching together.

There is also room for two rods on the quiver style pockets on the outside of the bag.

- Staggered internal compartment so your reels are not bunched together like in other similar holdalls
- Will hold 3 rods with reels made up in the padded internal compartment
- Quiver style pockets on the outside of the bag for 2 more rods
- Padded adjustable shoulder strap
- Outer pockets for landing nets and banksticks
- Made from luxury quality 600 denier material

170 x 40 x 30cm

CODE	DESCRIPTION
AVLUG/76	10ft 3+ Rod Holdall

5 ROD QUIVER

This versatile quiver takes five rods, the majority of brollies, and has two outer pockets purpose designed to take 42" landing nets or retaining slings.

- Takes 5 made up rods
- Large internal cavity to take majority of brollies
- Two outer pockets sized for landing nets and retaining slings
- Padded adjustable shoulder strap
- Padded rod retention arm
- Two carry handles for easy transport in and out of your car or barrow
- Reinforced waterproof base
- Made from luxury quality 600 denier material

128 x 40cm

CODE	DESCRIPTION
AVLUG/34	5 Rod Quiver

3+ ROD HOLDALL

This full-protection holdall will hold three made-up rods in the inner compartment and two rods on the quiver-style pouches and clips on the outside of the bag.

This allows anglers to store their spod and marker rod, with or without sleeves, on the outside of the bag so they can access them quickly at the start of their session.

Three rods without reels attached can also be stored inside the holdall under a padded flap.

- Made from luxury quality 600 denier material
- Padded shoulder strap
- Outer pocket to accommodate nets and banksticks
- Can hold five made-up rods and three rods without reels attached

195 x 30 x 20cm

CODE	DESCRIPTION
AVLUG/55	3+ Rod Holdall

5+ ROD HOLDALL

Perfect for anglers using expensive gear they want to protect well or for anglers travelling overseas that need to go fully prepared. This full protection holdall will hold five made up rods in the inner compartment plus three unmade rods on the opposite side. The holdall will also hold two rods on the quiver-style pockets on the outside of the bag. This allows anglers to take up to seven made up rods if they want, making it ideal for people who want to carry extra rods, like floater and stalking setups, in their holdall.

- Takes five made up rods, plus three unmade rods in the main compartment
- Two external quiver-style pockets to hold two further rods on the outside of the bag
- Two outer pockets to accommodate nets and banksticks
- Padded shoulder strap for maximum comfort
- Two carry handles for easy transport in and out of your car or barrow
- Made from luxury quality 600 denier material

195 x 30 x 20cm

CODE	DESCRIPTION
AVLUG/37	5+ Rod Holdall

DAY SESSION KIT

This lightweight combination allows you to carry your chair and bag as one, then use a simple two-rod sling to carry your rods and reels. The perfect combination for day session anglers travelling light.

CODE	DESCRIPTION
AVLUG/49	Day Session Kit

CONTAINS

RUCKBAG

The first dedicated carp rucksack that allows you to carry lightweight chairs on your back at the same time. This brilliantly functional bag is easy to carry and features the same sizing as our carryalls, to provide the ideal bag for keeping organised on the bank.

AVLUG/17	Safeguard Any Level XL

FOLDA-CRADLE

With a unique fold-flat design, padded side panels and an integral fish calming cover, this Folda-Cradle offers unrivalled levels of fish safety.

The design makes transportation easy while still retaining the complete all round protection. The integral mat is extremely well padded and removable. Supplied complete with carry bag, webbing straps and handles. Made from hard-wearing 150 denier Breathastop fabric, for the ultimate in big fish care.

- Fold-flat design
- 150 denier Breathastop material
- Removable central mat
- Padded and stiffened side panels
- Webbing straps and handles
- Built in fish calming cover
- Complete with carry bag

Weight: Standard 2.2kg / XL 3.3kg

Standard: 87 x 21 x 47cm

XL : 107 x 25 x 70cm

CODE	DESCRIPTION
AVLUG/52	Standard
AVLUG/53	XL

It's been a monster year for the Avid brand with impressive sales across a whole host of product categories. We are constantly striving to improve our product showcase and this year we like to think we've added some real winners to the mix.

Included in this are a new range of rods you simply have to pick up to really appreciate their superb action. The ***Curvex rods*** have one of the most ***responsive, non-lock actions*** ever created in a carp rod, making them perfect for many anglers, especially those using braided reel line and boats.

This year we have really embraced the '***Road Trip***' angler, and the new ***Screenhouse*** and ***Tardis Road Trip Editions*** are a great example of how we've tweaked products to give them wider appeal. The Screenhouse now has many more features, making it ***more versatile***, whilst the Tardis RT features our new ***Easy-Peak innovation***, that makes putting the peak in easier than ever before. We've also tweaked the Tardis to accept even larger bedchairs and there is an overwrap that provides a true extension because of the new peak.

We've added yet more stunning luggage to the ***Tuned™*** range, with more ***cool bags, pouches and rod holdalls***. There's also a brilliant new ***Rucksack*** and ***Mobile Roll-a-Mat***, which we expect most anglers will use in combination.

On the innovation front there's plenty to impress, including the brilliant ***Quick Click Adaptors***. These are great for storm poles, retaining slings, your buzz bars, banksticks and anything else where you want to avoid screwing things in! Speaking of screwing things in, the new ***Platform Screw Pegs*** are also really smart. Shaped like the 'A' in Avid, they're a real improvement on using cup hooks or electrical cable hooks. Our new ***Catapults*** are also a fantastic leap forward in design. Thanks to ***PTFE insert bushes*** we have the ***only carp catapults on the market where the elastic will not twist up*** and give you a headache.

If you like bling then you'll adore the ***Carbon Yard Sticks***, they really are a 'must-have' accessory, utilising 3D carbon manufacturing to keep our iconic swan neck shape.

All in all, it's a veritable smorgasbord of fantastic, desirable carp gear. And trust us when we say there's a lot more to come!

Tight lines,

Mat Woods

Avid Brand Manager

RETAINING SLINGS

The ultimate short term fish retention sling. Designed to be ultra-safe for carp, boasting our unique Magnet Technology. The magnetic clips ensure that the sling is a lot neater when weighing fish, therefore giving more accurate readings. The sling is constructed using soft mesh which promotes water flow and increases fish safety.

Supplied with a canvas bag and a secure cord attachment.

- Full foam top for buoyancy
- Magnetic clips to aid the weighing process
- Complete with canvas bag
- Secure cord included

Standard: 110 x 60cm / 1kg
XL: 130 x 70 cm / 1.2kg

ROODS & NETS

CURVEX

NEW ★2017★

Curvex is a story about action, feel, and sensation. Using non-lock carbon technologies, we have generated a range of carp rods that will change the way you bring big carp to the net. Featuring lightweight SIC guides, Fuji fittings and a parabolic action that's been tuned to perfection, it's time to play fish without fear. Just hold the rod and bend it for a new experience. Nothing feels quite like a Curvex.

- Made with NON-LOCK carbon materials
- Super slim diameter
- Parabolic through action
- Fuji reel seat and Japanese shrink wrap handle
- Lightweight SIC guides

10' 3LB CURVEX

Perfect for playing really big carp at close quarters. In the boat, the gradual parabolic power build up makes it ideal for big fish on even the most demanding venues.

TRACTION

avidcarp.com

All Avid Carp Traction rods boast a new Reactive carbon fibre technology, wrapped in matt 3k weave, that enables us to offer a unique take on a traditional 'parabolic' action. This enables anglers to deliver a slower power build up for casting, offering distance gains with minimal effort. Reactive carbon also helps absorb the lunges of fighting fish better than other rods, giving the angler more control when it really matters. This careful blend of technologies provides the perfect action for modern carp fishing.

- 3k weave with high quality matt finish
- Reactive parabolic carbon technology
- Matt black guides
- Full length Japanese Shrink Wrap handle
- 18mm Supa-lite reel seat
- Laser engraved butt cap
- Taped line clip

12' 2.5LB TRACTION

Boasting our unique Reactive carbon and 3k weave, the 12ft 2.5lb rod offers the most playing action of the fishing rods in the Traction range. This rod provides a responsive action perfectly suited to European styles of fishing. Its primary purpose is for playing big fish with the perfect curve.

CODE	DESCRIPTION

HANDLE MATERIAL	Shrink Wrap

12' 3LB TRACTION

Boasting our unique Reactive carbon and 3k weave, the 12ft 3lb rod boasts the same beautiful action as the rest of the Traction range. This rod provides a perfect blend of progressive power with a responsive action for maximum control when it matters. It has plenty in reserve for longer casts, aided by the 50mm butt ring, but its primary purpose is for playing big fish with the perfect curve.

12' 3.25LB TRACTION

Boasting our unique Reactive carbon and 3k weave, the 12ft 3.25lb rod boasts the same impressive action as the rest of the Traction range. This rod provides a perfect blend of progressive power with responsive action for maximum control when it matters. It has plenty in reserve for longer casts, aided by the 50mm butt ring, but its primary purpose is for playing big fish with the perfect curve.

CODE	DESCRIPTION
AVROD/02	12' 3.25lb

10' 3LB TRACTION

Perfect for bait boat and rowing boat anglers that don't need to cast as well as anglers fishing small waters or travelling light. The 10ft 3lb Traction boasts the same beautiful action as the rest of the range thanks to our blend of Reactive carbon and a 3k weave. It offers a perfect blend of progressive power with a reactive action for maximum control when it matters.

12' 5LB TRACTION SPOD ROD

Compression is everything when it comes to spodding, and in the modern era of larger and heavier baiting devices, we believe the Traction Spod Rod offers the perfect action for the majority of anglers. The Reactive carbon used across the range extends the period of time it takes to fully compress the rod, meaning anglers can cast large weights repeatedly without issue At 5lb strength it will handle weights up to 8oz with ease, but remains easy to compress.

- Matt black guides with 50mm butt ring
- Perfect for all modern baiting devices

CODE	DESCRIPTION

TRACTION

12' 3.5LB TRACTION MARKER ROD

Accuracy is everything when it comes to feature finding and having a rod that is easy to cast with and read the lakebed with is essential. The 3.5lb test curve is ideally matched to the leads most anglers use for feature finding, whilst the Reactive carbon used across the Traction range enables long, accurate casts, whilst retaining tip stiffness for better registration of the features below the water. Comes complete with 6" and 12" markers on the blank, for maximum usability.

- Matt black guides with 50mm butt ring
- 6" and 12" depth markers

TRACTION 42" NET AND HANDLE

The perfect compact landing net combo. Packs away neatly into equal pieces making it easier to transport around in a barrow or boat.

- Compact landing net combo
- Packs away into three equal pieces
- 1.85m long when put together making it perfect for the majority of carp fishing situations
- The top half of the handle can also be used on its own with the net for boat work
- Reinforced spreader block, shaped to aid the putting together and taking apart of the net arms
- Four recesses for isotopes
- Pinned thread attachment
- Japanese shrink wrap at top and base
- Super soft olive green 42" mesh
- 42" super strong carbon arms
- Matt black aluminium butt cap

CODE	DESCRIPTION
AVLNET/01	42" Net and Handle

MSX NET & HANDLE

A truly beautiful 1.8m landing net handle combination, boasting a stunning 3k carbon weave, matt black fittings and a super sexy aluminium spreader block.

- 1.8m one-piece 3k carbon handle
- Uses the same carbon technology featured in Avid Carp MSX rods
- Strong and lightweight
- Machined aluminium block with smoky gun metal finish
- Micro isotope recess
- Super soft olive green 42" mesh
- 42" super strong carbon arms
- Japanese shrink wrap at base of handle
- Matt black aluminium butt cap

CODE	DESCRIPTION

CODE	DESCRIPTION
AVLNET/03	Landing Net Mesh

CURVEX LANDING NETS

A stunning 2.4m landing net handle combination, built using the same quality carbon as the Curvex fishing rods. Boasting a beautiful finish, matt black fittings and a super sexy aluminium spreader block.

The Curvex handle comes with a metal hook that can be screwed into the end, which allows you to de-snag fish should they come into contact with snags while you are out in the boat. The Curvex landing net is already a favourite among European boat anglers. Built from quality components that won't let you down!!

FEATURES:

- 2.4m (8ft) two-piece carbon handle
- Uses the same carbon technology featured in Curvex rods
- Supplied with metal de-snag hook
- Strong and lightweight
- Machined aluminium block with smoky gun metal finish
- Micro isotope recess
- Super soft black mesh
- Super strong carbon arms

MSX 2.75LB

- Hand built
- Built on a top-quality carbon blank
- 50mm butt ring
- Full Duplon handle

An incredible all-rounder, this 2.75lb rod is built on the highest specification carbon available, therefore producing a rod that's at the forefront of modern technology. Sporting a 50mm butt ring and a full Duplon handle, the rod has the aesthetics you would expect to find on a top of the range custom built rod. In a nutshell, this outstanding hand-built rod has all the backbone required for casting at range, but also features a superb playing action with plenty of feedback through the blank.

DSK 12' & 13'

Available in 12' and 13' the DSK rods are designed for fishing at extreme range. Built on the finest carbon available and boasting top-quality Fuji K Series rings to eliminate frap ups, these rods are at the forefront of rod technology. They are super-strong, incredibly reliable and, with a little practice, there's no reason why you won't be achieving distances you've never cast before. Boasting an abbreviated handle, 50mm butt ring and understated graphics, these rods are sure to find favour with anglers than want to achieve all new distances. They really are beasts!

OUTLINE MONO REEL LINE

This incredible reel line breaks up its own Outline underwater, making it harder for carp to detect than standard single-colour monofilaments. The clear finish has been combined in a two-tone construction with a specially developed algae-coloured tint, to offer new levels of invisibility. The material itself has excellent knot strength but remains smooth for casting. It's abrasion resistant qualities marry beautifully with it's slightly absorbent nature, making it the perfect line for modern carp fishing.

- Two-tone construction for invisibility
- Super strong knot strength and abrasion resistance
- Mega supple and slightly porous, so it sinks well

NEW ★ 2017 ★

OUTLINE FLUOROCARBON LEADER

This impressive fluorocarbon breaks up its own outline to offer unrivalled invisibility in water. Fluorocarbon can be quite conspicuous when off the lakebed, so by using an algae-tinted two-tone construction, the outline is very hard to distinguish at all levels in the water column. This makes Outline Fluorocarbon a very special leader material or hooklink, marrying supreme sinking qualities with new levels of invisibility, great knot strength and abrasion resistance.

- Two-tone construction for invisibility
- Super strong knot strength and abrasion resistance
- A next level leader and hook link material

10 METRES

PINDOWN HOOKLINK

- Super supple
- Strong

This hooklink material is super-supple, heavy and abrasion resistant. Like the popular PinDown leader material, it's fast sinking and virtually disappears on the bottom. There's no need to add putty to sink it and it hugs every contour on the lake bed. Due to the low diameter of the material, you don't need to splice it and you can tie knots in it like conventional hooklinks.

TRAP LINE

- Super strong
- Excellent knot strength
- Great casting capabilities
- Low memory
- Fast sinking
- Minimal stretch

Trap Line is a great all-round monofilament main line that has been designed with strength in mind. The Avid Carp team has developed a line that's strong, reliable and has great knot strength. Although it's extremely tough and hard wearing, the line is still super soft and supple. Boasting low diameters even in the higher breaking strains, it casts well and is brilliant for fishing at range. As soon as the line is cast out, it sinks quickly and becomes virtually invisible.

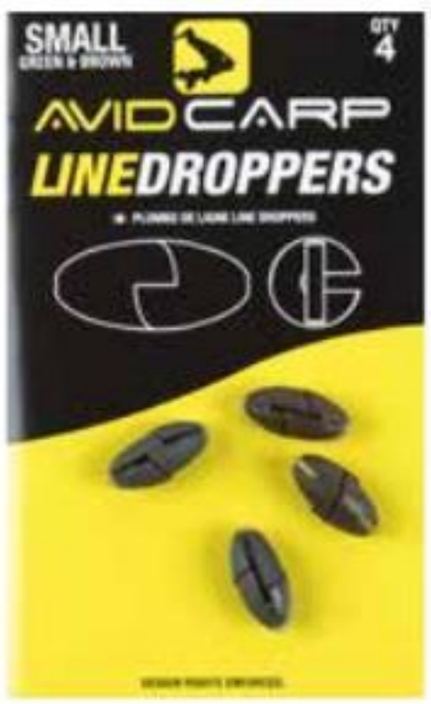
- Supplied on wires for easy threading

9 per pack

CODE	DESCRIPTION
AVA/58	Small
AVA/59	Medium
AVA/60	Large

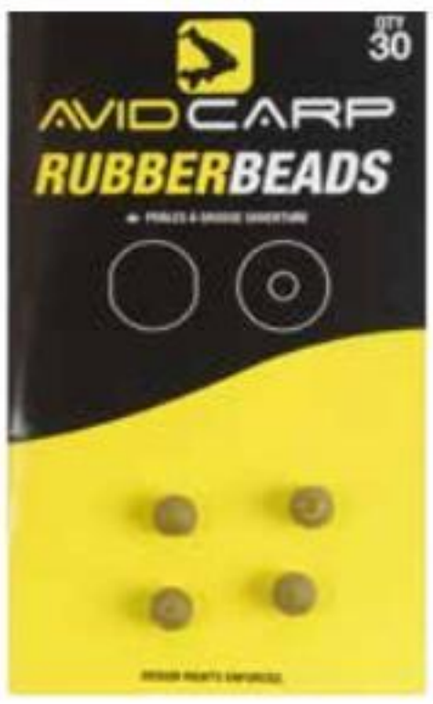


LINE DROPPERS

- Colours matched to blend in on lakebeds
- Perfect for pinning down your main line
- Ideal for over-shotting pop-ups

Supplied with 2 green, 2 brown and 2 spare rubbers

CODE	DESCRIPTION
AVA/31	Small
AVA/32	Large



RUBBER BEADS

- Colour matched to blend in on lake beds
- 6mm in diameter to suit Avid Ring Swivels
- Can be used as a buffer to protect knots

30 per pack

CODE	DESCRIPTION
AVA/30	Rubber Beads

IN-LINE RUN BEADS

- Create safe in-line running rigs
- By using loop knots at the end of your rigs, you can swap hooklengths easily and effectively

8 per pack

CODE	DESCRIPTION
AVA/19	In-line Run Beads

METHOD FEEDERS

- Quick-change design
- Lockable insert
- Subtle flatbed design
- Each pack contains two feeders
- Small Method Feeders compatible with Small Avid Method Mould
- Large Method Feeders compatible with Large Avid Method Mould

The Flatbed Method Feeders allow you to present a parcel of bait with your hookbait inside. Due to the unique quick-change design, you can change the size and weight of the feeder you are using in a matter of seconds. You can even create a drop-off presentation with the feeder if you want to eject it when targeting carp on weedy venues.

To aid casting, the Flatbed Method feeders have a weighted nose and an aerodynamic design. The Feeders have a low profile and are finished in a subtle colour, so they are extremely inconspicuous on the bottom.

CODE	DESCRIPTION
AVMF/1.5	Small - 1.5oz/42.5g
AVMF/2.0	Small - 2oz/56.7g
AVMF/2.5	Large - 2.5oz/70.9g
AVMF/3.0	Large - 3oz/85g

METHOD FEEDER MOULDS

- Unique push-button design
- Small Method Feeder Moulds compatible with Small Avid Method Feeders
- Large Method Feeder Moulds compatible with Large Avid Method Feeders

Designed to be used in conjunction with the Avid Flatbed Feeders, these Method Moulds feature a unique push-button design. The Moulds allow you to perfectly load feeders full of groundbait or pellets super-compact and the same size every time, which makes casting accurately much easier.

CODE	DESCRIPTION
AVMFM/S	Small
AVMFM/L	Large

HOW TO...
LOAD A FLATBED FEEDER

01 *Add a thin layer of prepared pellets to the Method Mould.*

02 *Now place your chosen hookbait and rig inside the Mould.*

03 *Fill the feeder to the brim with more pellets.*

04

05 *Turn the Mould upside down and press the quick-release button.*

06 *The loaded Method feeder should look like this.*

HIGH LITES

- Perfect for Zig, Chod, Pop-up and Snowman rigs
- Built-in oils and attractants to fool the fish
- Bright visual colours that attract carp
- More buoyant than rubber or plastic baits

AVTSPB/08	Size 8

TRANSFER PVA TAPE

- PVA dissolves after only a few minutes
- Leaves no residue
- 20m length
- 10mm width

Made from the same high quality PVA as the Transfer PVA bags, the tape has been designed to dissolve at the same rate, leaving no residue so as not to spook any wary fish, and helps the angler produce the perfect bait presentation.

CODE	DESCRIPTION
AVTSPT	Spare Transfer PVA Tape

TRANSFER BAG LOADING KIT

- 20 Transfer Solid PVA bags
- 10m Transfer PVA Tape
- Avid Bag Loader

It has all you need to make the very best of PVA solid bags: an Avid Bag Loader, 20 Transfer PVA bags and 10 metres of Transfer PVA Tape.

CODE	DESCRIPTION
AVTBLK/S	PVA Bag Loading Kit - Small
AVTBLK/L	PVA Bag Loading Kit - Large

PVA REFILLS

■ 5m refills

These refills are on handy button spools that fit inside your tackle box. The anti-ladder micromesh PVA melts quickly all-year round and allows you to use small baits like maggots, pellets and groundbait.

CODE	DESCRIPTION
AVPVA/PSR	Pocket Stick Refill
AVPVA/WLR	Wide Load Refill

WIDE LOAD SYSTEM

■ Built in scoop

The Avid Wide Load System contains everything you need to construct PVA bags and sticks. The bait tube has a built-in scoop that makes loading bait easier than ever before. The anti-ladder micromesh PVA melts quickly all-year round and allows you to use small baits like maggots, pellets and groundbait.

CODE	DESCRIPTION
AVPVA/WLS	PVA Wide Load System

POCKET STICK SYSTEM

■ Ergonomic finger grip

■ Built-in scoop

The Avid Pocket Stick System contains everything you need to construct PVA bags and sticks. The bait tube has a built-in scoop and an ergonomic finger grip similar to a syringe. The anti-ladder micromesh PVA melts quickly all-year round and allows you to use small baits like maggots, pellets and groundbait.

CODE	DESCRIPTION
AVPVA/PSS	PVA Pocket Stick System

HOW TO...
MAKE A PVA STICK

01 *After following the mixing instructions on the bag, load your PVA funnel with stick mix*

02 *Squeeze the bait tightly into the PVA using the plunger*

03 *Ensure the contents of the bag is compact and twist the PVA at the top of the stick*

04 *Tie two overhand knots in the PVA next to each other*

05 *Using a sharp pair of scissors, snip between the two knots*

06 *Finally thread your hooklink through the middle of the stick and push your hook into the end*

READY TIED ZIG RIGS

These zig rigs are tied using 11lb monofilament which has an incredibly low diameter of 0.26mm, yet is still strong enough to perform well under pressure. They are tied using a size 10 WDG hook which has a Zig Grub slide onto the eye to improve hooking potential and add visual attraction. Knowing that yellow and black are two of the most popular colours for fishing in the upper layers, there's a Black/Yellow Zig Lite already attached to the rig.

AVZR/03	10ft Barbed
AVZR/04	10ft Barbless

SUPPLIED WITH 10 CLIPS AND SWIVELS

ZIGS

ZIG CLIPS

Possibly the safest leadclips on the market. A unique plastic tag system on the barrel means you can whip PVA tape around the clip and merely pinch it under the tag to secure it. This means you can use the clip without a Tail Rubber when required, perfect for zig fishing or fishing in heavy weed.

CODE	DESCRIPTION
AVA/16	Zig Clips

PROTECTED INNOVATION

ZIG BOX

- Boasts eight specifically designed zig spools
- Supplied with 32 spare spool stickers
- Spools supplied in compact i-design UK box
- Box has a 12in ruler for measuring Zigs
- Holds 16 made up Zig rigs

The ultimate zig rig storage solution. This compact i-design box is supplied with eight zig spools that will each hold at least two made up zig rigs. The spools boast specifically designed sliders that allow you to conveniently store zigs of all lengths.

CODE	DESCRIPTION
AVZB	Zig Box

ZIG GRUBS

- Can be used for a variety of presentations
- Feature a pre-drilled hole that will grip most hooks

Designed to be used in conjunction with Zig Rigs, these Grubs boast a pre-drilled hole so you can thread them up your hooklink and over the eye of most hooks. As well as adding visual attraction, they also improve the hooking potential of the rig.

10 per pack (5 black, 5 yellow)

CODE	DESCRIPTION

BOBBINS

Specially designed to maximise the amount of light that emits from the bobbin head in daylight or when lit at night with an isotope, Avid Carp Bobbins feature a number of new technologies designed to take your bite indication to the next level.

Included in the kit are two line grippers, one features our own Yin-Yang ball clip design that can be used to either gently pinch the line or in a running style. The other clip is a more traditional style for slack line fishing. The kit also features a larger bobbin for longer range fishing, two super tough ball chains, a re-inforced hockey stick, two weights, and a small box to keep all your spare bits in.

KIT CONTAINS:

- 2 x Avid Line Grippers
- 2 x Bobbin cartridges
- 1 x 3 inch ball chain
- 1 x 9 inch ball chain
- 1 x Bobbin iDesign box
- 1 x 2.5g weight
- 1 x 5g weight

YARD STICKS

- Unique curved design
- Supplied with 12ft cord with toggles

Make fishing accurately easier than ever before. They are designed so you can mark-up your fishing rods and spod rod super-accurately after you've found an area with your marker rod. Complete with 12ft cord for setting out accurately, there are colour-coded toggle stops that enable you to mark three different spots.

CODE	DESCRIPTION
AVYS	Yard Sticks

OVERNIGHTER YARD STICKS

A lightweight, compact version of our popular Yard Stick design, featuring glow-in-the-dark tops and a stealthy black finish. The sticks are supplied with a 12ft cord so you can set them up quickly and easily on the bank. The cord has three coloured toggle stops that give you the option to mark three different spots. The Yard Sticks have a unique curve at the top that ensures the line comes off in an easy controlled manner.

- Glow-in-the-dark tops
- Compact swan neck shape
- Complete with 12ft cord
- Long durable points
- Three colour-coded toggle stops
- Ideal for fishing with complete accuracy

CODE	DESCRIPTION
AVYS2	Overnighter Yard Sticks

SCREW POINT YARD STICKS

A screw point version of our popular Yard Stick design, featuring glow-in-the-dark tops and a subtle black finish. The super-tough points allow you to screw the sticks into tough ground with ease. The sticks are supplied with a 12ft cord so you can set them up quickly and easily on the bank. The cord has three coloured toggle stops that give you the option to mark three different spots. The Yard Sticks have a unique curve at the top that ensures the line comes off in an easy controlled manner.

- Glow-in-the-dark tops
- Screw point design
- Complete with 12ft cord
- Subtle black finish
- Three colour-coded toggle stops
- Swan neck shape
- Ideal for fishing with complete accuracy

CODE	DESCRIPTION
AVYS3	Screw Point Yard Sticks

CARBON YARD STICKS

A carbon fibre version of our hugely popular Yard Stick design. These sleek, lightweight sticks are supplied with a 12ft/3.6m black cord so you can set them up quickly and easily on the bank. The cord has three coloured toggle stops that give you the option to mark three different spots. The Yard Sticks have a unique curve at the top that ensures the line comes off in an easy, controlled manner.

- Lightweight design
- Made from high grade carbon
- Swan neck shape
- Comes with 12ft/3.6m black cord
- Supplied in protective case
- Three colour coded toggle stops
- Ideal for fishing with complete accuracy

CODE	DESCRIPTION

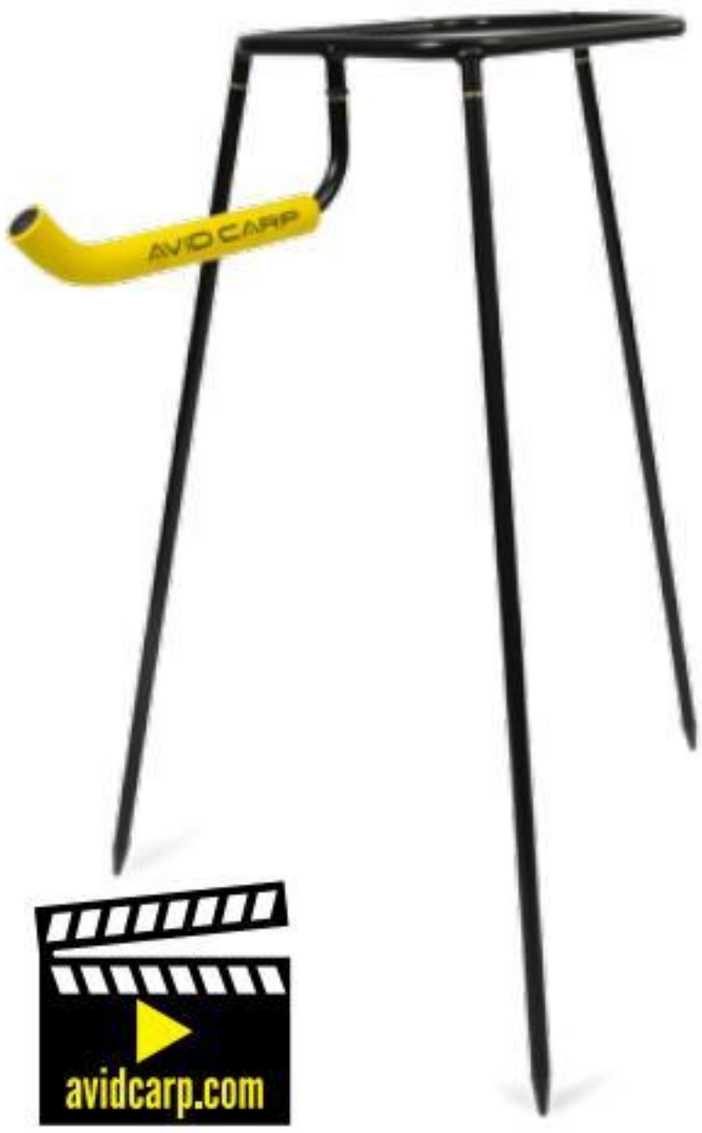
CAMOU BUCKET

Compatible with the Avid Bucket Stand. The square shape makes life easy when loading your car and your barrow. Finished in an understated, dull, dark olive green and featuring the Avid Carp logo in our iconic camouflage pattern.

CODE	DESCRIPTION
AVB/01	10 litres



avidcarp.com

SQUARE BUCKET STAND

An innovative solution designed to speed up the baiting-up process. Whether spodding, catapulting or using a throwing stick, the Square Bucket Stand puts the bucket right at waist height, making it easier than ever to bait-up. The Stand also features a dedicated foam rod rest, as many baiting tools require you to put your rod down whilst loading bait. Fits all sizes of Avid Carp Square Buckets and many other popular brands. Comes complete with three banksticks.

Internal dimensions: 27.5 x 23.5cm
Height when assembled: 77cm

CODE	DESCRIPTION
AVB/03	Square Bucket Stand

QUICK CLICK ADAPTOR

These handy adapters have a multitude of uses, allowing you to instantly remove threaded accessories like storm poles, banksticks and retaining sling cords.

- Extra strong lever-lock design
- Long-life metal threads
- Ideal for storm poles, banksticks and retaining sling cords

CODE	DESCRIPTION
AVQC/01	Quick Click Adaptor

MARKER FLOAT

- Durable and super buoyant
- Aerodynamic float

It's durable and made from a super buoyant material so it will rise to the surface effortlessly. By separating the flights from the body and shaping it similar to a dart, this aerodynamic float will fly straight every time. It is finished in a high-vis orange colour so it is visible at range.

CODE	DESCRIPTION
AVMF	Marker Float

MARKER LEADS

- Aerodynamic body, casts straight and true every time
- Unique grooves transmit more information

Boasting unique grooves, they transmit more information through the rod tip than a standard lead and gather debris from the bottom. They have a solid stem which gives a more accurate reading in weed. The swivel on the stem is positioned away from the lead so the float will always rise even if the lead is covered in debris.

Pack contains one 3oz lead and one 4oz lead

CODE	DESCRIPTION
AVMLD	Marker Leads

SURFACE SPOD

- Multi range
- Designed for floating baits
- No strings, tangle-free design
- Weighted nose for straighter, truer casts
- Mega buoyant inner ball slides within the inner chamber to promote release of floating baits

CODE	DESCRIPTION
AVS/SS	Surface Spod

MARKER FLOAT KIT

Contains everything you need to start feature finding. The products in the kit have been designed and developed to work together, and will allow you to find out exactly what the lake bed in front of you is like.

Contains 1x Marker Float, 1x 3oz Marker Lead, 1x 4oz Marker Lead, 2x Buffer Beads

CODE	DESCRIPTION
AVMFKIT	Marker Float Kit

AIR RANGE SPODS

- Hinge arm system
- Easy loading, super-strong construction
- Mega buoyant nose cone
- Super-strong construction
- Aerodynamic shape with large fins

Our unique means of attaching the spod to the main line means you can scoop up bait without the problems of mono tails getting stuck in your spod mix. The flexible arm makes retrieval of the spod more angler friendly, creating very little disturbance on the surface and a much easier line pick-up.

The arm simply hinges upwards, taking the top half of the spod with it preventing unwanted drag through the water.

CODE	DESCRIPTION

AIR CAGE SPOD

- Unique mesh construction and tapered body
- Hinge arm system
- No strings, tangle-free design

CODE	DESCRIPTION
AVACS	Air Cage Spod

PARTICLE/SMALL PARTICLE/MEDIUM SOLID/MEDIUM SOLID/SMALL AIR CAGE

BOTTLE MARKERS

- Ultra-buoyant construction
- Finished in high visual colour
- Reflective section for night use
- Supplied with 12 purpose-designed beads

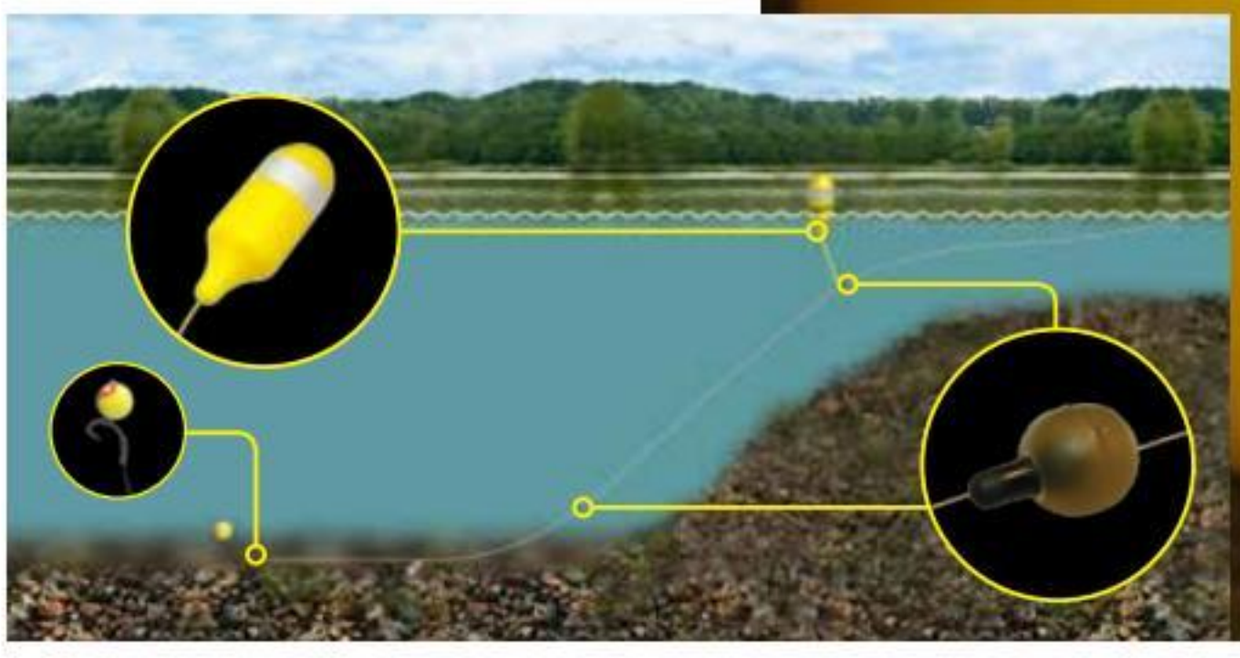
Designed specifically for boat work, these Bottle Markers allow anglers to keep their main line off the lake bottom between their rod tip and lead, ensuring that it sits above any snags or obstructions on the lake bed.

Before attaching your rig or leader, you need to attach two of the supplied Rubber Beads to your main line. As you drop your rig from the boat, one bead should be set a few feet above your rig and the other should be positioned a couple of feet over depth, to give the float a little bit of movement. Once you've dropped your rig into position, attach the Bottle Marker to your main line, between the two beads, using the clip on the elasticated section of the Marker.

With the Bottle Marker now on the surface of the lake, you can head back to the bank, safe in the knowledge your main line is going to be above any snags and out of harms way. When it comes to landing a fish, the beads will simply slide down your mainline, allowing you to land the carp without any problems.

2 per pack

CODE	DESCRIPTION
AVBM	Bottle Markers



MULTI CATAPULT

Featuring an XL elastic and a large pouch, this catapult is perfect for introducing large quantities of bait at various ranges. The catapult features PFTE-Anti-Twist Technology making it virtually impossible to tangle, increasing efficiency and performance when introducing bait.

- Anti-Twist Technology

BLIZZARD WATERPROOF JACKET

This superb jacket is made from a drab olive green 10,000mm waterproof material and features a stylish, understated leather patch logo. The jacket is lined with a lightweight, soft touch camouflage material that provides an extra wind-proof barrier. Adjustable waist and cuffs mean you can tailor the jacket to fit your shape and a full length zip with two hand pockets complete what is a great option for carp anglers. The jacket is lightweight and great for year-around use. Compresses down neatly, to offer a compact jacket for storage in your fishing luggage.

FEATURES

- Soft feel 10,000mm waterproof material
- 3000 g/m² breathable rating
- Lightweight lining
- Adjustable waist and cuffs
- Compact when packed away
